

Chicmi Jewellery Care Guide and Glossary of Imperfections

Jewellery Care Guide:

- Remove your jewellery when you are in the bath, swimming or intensely exercising to maintain its quality and shine. Keep your jewellery away from extreme temperatures, humidity or sunlight.
- Avoid spraying perfumes and applying creams or any other liquids directly onto your jewellery.
- Store your jewellery in a soft pouch or suitably lined box (like our Trinket Box or Jewellery Roll).
- All our sterling silver products are protected with an anti-tarnish solution to help prevent tarnish.

Jewellery Care Kit:

Clean, brighten and preserve your Monica Vinader jewellery. Sourced from sustainable materials, our organic cotton pouch holds all you need to ensure each piece retains its beauty: a jewellery cleaning spray, reusable polishing cloth and soft-bristle brush.

From gold vermeil to solid gold and sterling silver, caring for your jewellery will ensure it lasts a lifetime.

Precious Metals and Diamonds:

- Spray your jewellery 1 - 2 times with our cleaning spray.
- Use the brush to remove any visible dirt.
- Rinse with clean water.
- Pat until fully dry with a clean towel.
- Use the polishing cloth to gently polish your jewellery.

Gemstones:

Many natural gemstones are quite delicate. Hot water, harsh chemicals and cleaners should always be avoided. Clean your gemstones with a clean, soft, damp cloth after wearing.

Pearls:

Use a dry, soft cloth to clean your pearls to maintain their natural lustre.

Corded Bracelets

Keep your corded friendship bracelets clean by occasionally washing with a soft sponge and mild soap, in lukewarm water.

Glossary of imperfections:

The sale products are pieces that did not meet our extremely high quality control standards and may have some minor imperfections. Below is a list of imperfections that may be present in your item.

- **Dents:** Small dents that cover a small area of the product.
- **Misshapen:** Slightly misshapen but still functions and perfectly wearable.
- **Plating colour:** maybe slighter darker/ lighter but is uniform.
- **Pinpoint tarnish:** Small tarnishes that resemble brown dots.
- **Scratches:** Hairline scratches maybe present on the product.
- **Stone inclusions:** Colour of stone maybe slightly imperfect .
